SCIENTIFIC PROGRAM
Welcome to Endometriosis2017

Dear Friends and Colleagues,

It is our pleasure to welcome you to the “Endometriosis 2017 from diagnosis to medical and surgical management: a stocktaking international experts’ meeting.

We are all aware that nowadays endometriosis is probably the most challenging among gynecological benign diseases, in terms of epidemiologic spread and impact on women’s quality of life. The management of these patients is still characterized by several critical points.

This congress will be a great opportunity to present and discuss the latest developments related to endometriosis disease. Our field is constantly advancing and sometimes is challenging to follow.

Our aim is to provide a comprehensive update on the overall management of this disease, from diagnosis to clinical and surgical treatment, with special attention to the reproductive outcome.

With this aim, we have made every effort to involve in our International Faculty the top experts in this area, in order to offer the participants a great opportunity of scientific and professional advancement.

We are convinced that the best management of patient affected by endometriosis may arise from the creation of a specialized net of referral centers for diagnosis and treatment and at this aim a complete knowledge of the disease is crucial for any clinician facing it in his daily practice, in order to make the best possible use of advancing science to improve the care of patients.

We built the scientific program in order to offer lectures on the main topics and live surgery and ultrasound sessions with interactive debates to show their practical application, so that, at the end of the Congress, participants are expected to have detailed comprehension of the anatomical knowledge and surgical skills needed to correctly perform endoscopic surgery of endometriosis, ultrasound exam requirements to perform an accurate mapping of the lesions, information about other imaging techniques appropriate for presurgical evaluation of patients, correct principles of medical treatment and management of infertile patients with endometriosis.

The advancement of knowledge about endometriosis disease and the diffusion of good clinical practice in patients’ care is our final goal, and your contribution is the key to this purpose.

So that, enjoy the Endometriosis2017 Congress and help us to shape the future of this challenge.

Il badge e la scheda di valutazione devono essere consegnati al desk di segreteria al termine del Congresso.

EACCME® CREDITS
The Endometriosis 2017 from diagnosis to medical and surgical management: a stocktaking international experts’ meeting has been accredited by the European Accreditation Council for Continuing Medical Education (EACCME®) with 21 European CME credits (ECMECs). Each medical specialist should claim only those hours of credit that he/she actually spent in the educational activity. Please see below the breakdown of ECMECs per day:
- 14.09.2017 - 6,00
- 15.09.2017 - 8,00
- 16.09.2017 - 7,00

The EACCME® awards ECMECs on the basis of 1 ECMEC® for one hour of CME with a maximum of 8 ECMECs per day. Cf. Chapter X of UEMS 2016.20.

AMERICAN MEDICAL ASSOCIATION (AMA)
Through an agreement between the Union Européenne des Médecins Spécialistes and the American Medical Association, physicians may convert EACCME® credits to an equivalent number of AMA PRA Category 1 Credits®. Information on the process to convert EACCME® credit to AMA credit can be found at:

Live educational activities, occurring outside of Canada, recognised by the UEMS-EACCME® for ECMECs are deemed to be Accredited Group Learning Activities (Section 1) as defined by the Maintenance of Certification Program of the Royal College of Physicians and Surgeons of Canada.”
